AT STOCKTON. Delegates to the Y. M. I. Grand Council Having a Fine Time. (Copyright, 1888, by the California Associated Press.)

AT STOCKTON. Several more delegates to the Grand Council of the Young Men's Institute arrived to-day, to attend the session the Grand Auditorium sub-mitted his report.

The local Institute is doing all in its power to entertain the delegates to come off to-day, and the only event was a racing race which was won by Patchen. He took the second, third and fourth heats. Gold Leaf won the first heat in 2:23. The best time was 2:17.

ORIGINAL DEFECTIVE

SACRAMENTO DAILY RECORD-UNION. WEDNESDAY, SEPTEMBER 5, 1888.

DAILY RECORD-UNION

WEDNESDAY SEPTEMBER 5, 1888

Grover Cleveland has done more to advance the cause of free trade than any Prime Minister of England has ever done."—London Spectator.

The demand for cheaper coats seems to me necessary to involve a cheaper man and woman under the coat."—Benjamin Harrison.

THE CHINESE BILL AND PARTY RESPONSIBILITY.

The San Francisco Examiner says: "The Democratic party has promptly responded to the appeal of the Pacific coast. The news of the rejection of the Chinese treaty is not yet official, but with what was in any thing like the telegraphic report, Mr. Scott, the representative of the administration, in the House, moved a bill short-pinned and perfect, the House passed it through all its stages and went to the Senate the same day."

This is decidedly refreshing. "Promptly" Yet the Pacific coast delegation has for over three years been laboring to see necessary restrictive legislation and the aid of the administration to that end, but without avail. The constant reply was that there must be no legislation in contravention of the existing treaties. Yet now we have the administration itself seeking to steal a march upon Pacific coast Representatives for political effect, proposing a measure of precisely the character to which it made such strenuous opposition so recently.

If the Democratic party has been at any time a unit for the exclusion of Chinese, why when it had control of both houses of the Forty-sixth Congress did it not pass a measure such as the demand demanded? Representative Page at that time introduced a bill for the purpose of affording relief, but it was not adopted by either house. For two years it had absolute control of the national legislature, but did practically nothing. The treaty with China was negotiated in the latter part of the year 1880, when Congress was Democratic, having seven majority in the Senate. Legislation was necessary to prevent evasion of the spirit of the treaty, but though the Democrats controlled both houses for two years—until 1882—no legislation was attempted.

When the Fair restriction bill passed the Senate, for which General Harrison voted, that body was Republican by a small majority. The House was Democratic by great preponderance, and permitted its Committee on Foreign Relations to pocket the bill, despite the demand of the California Representatives to have it reported and taken up. The plea then was the same so recently advanced by Mr. Cleveland's administration—that it would not do legislate in contravention of a treaty, or in a manner that might be construed as antagonistic to its spirit.

The truth is, that there was for years no unity among the members of either party upon this question of restriction. The people of the great East had not come to understand it as it was understood upon the Pacific coast. They very largely looked upon it as did Mr. Cleveland when he asked if the Chinese could not be Christianized and made good citizens. Leading men in both of the greatest political parties at the East held to views upon the question that were opposed to the California sentiment and experience. It has taken nearly two decades of time to enlighten the East upon the question sufficiently to command for Pacific coast petitions even respectful hearing. It is not for either Republicans or Democrats to claim all the virtue, nor for either to charge the other with all the sins of the situation. That relief promised and likely to be now afforded is enough for the people on this side of the country. But when one party assumes to be the only one that has contributed to restrictive movements in Congress, the claim cannot be supported, nor will the history of legislation sustain the claim that either party has alone thrown obstacles in the way of legislation to exclude the non-assimilative Chinese laborers and artisans.

Nevertheless the attempt of the administration to make Democratic campaign capital by its sudden and wholly unexpected manifestation of solicitude in behalf of an exclusion policy, testifies to a political anxiety that confesses the neglect and incompetency of the party in the past to afford the relief demanded.

PRESIDENT CLEVELAND's message upon ratification measures in the Canadian matter was a confession that his fisheries treaty was a failure, and that the administration had neglected to apply corrective provided by Congress to grave commercial wrongs upon American trade over the Canadian border. But by that confession the President expected to cover the errors of the past by skillfully touching the patriotic sentiment of the people. By rushing into and through the House a bill restricting Chinese immigration in defiance of treaty obligations, the President confessed that his treaty with China was a failure, and admitted that it would endanger his strength upon the Pacific Coast and among the working classes. The Scott bill does precisely that which Mr. Cleveland and his Secretary of State have heretofore protested could not and must not be done—crosses at right angles a solemn compact by treaty with a foreign power. Mr. Cleveland has entitled himself to a new cognomen—he will become known as the great American hedgehog.

Some contemporaries refer to the New York Evening Post and New York Times as Republican journals supporting Mr. Cleveland. A mistake. They are Democratic or nothing this season, and have been nothing else since they departed from the independent critical ground they occupied a few years ago. The Republican party is not and never was responsible for them.

The Louisville Courier-Journal, which has at its head the foremost of Democratic journalists, declared that "the Democrat who is not a free trader should go elsewhere. He should join the Republicans." A great many thousands of old-time Democrats accept the judgment of the Journal, and are "joining the Republicans," as Mr. Watson advises.

No man's words should be so low that he cannot talk freely about the feelings of old age."—Benjamin Harrison.

And this is the man that District Assessor 105 wishes when it declares that he said \$1 a day is enough for a working man.

Mr. QUAY, Chairman of the Republican National Committee, has referred to our Druggist and Apothecary.

A half of Democratic chaste to an Adit subscription that Chairman Quay never said anything of the kind.

The Yantes are closing the break in the above the town of Washington.

ANOTHER SENSATION.
It is Believed a Man Was Murdered and
Crucified.

About 6 p.m., on Sun'y last, an alarm was sounded from box 62, Twentieth and O streets. It was simply an alarm of fire, and as it was so far out in the suburbs, little attention was paid to it. The fire department went out, but found they were late to save a burning barn, and there were no buildings near it, they returned. The Record Union on the following morning said from what could be learned that it was an incendiary fire. Officer Frazer, investigating the whole case, and finally came to the conclusion that his entire satisfaction that it was not only an incendiary fire but that the barn had been burned in order to cover up a cold-blooded and cruel murder. From a very small circle of people it was known that the man had been murdered all on account of a glass of beer; that he had been carried to a barn and then cremated in order to cover up the crime.

Major Frazer went out and examined the ruins of the barn, and as he expected, found the charred remains of what he thought was a human being. He also found some human teeth, and hair, the ends of which, according to his examination, are usually on men's clothing when melted gold and silver coin. This confirmed his worst suspicions. The coroner was notified and took charge of the remains when the detective began to inquire further to corroborate his belief in murder and subsequent arson to cover up the crime.

Last evening Deputy Coroner Clark summoned a jury and proceeded to inquire into the cause of death of the man whose bones were taken from the ashes of the burned building.

Dr. Gardner was placed upon the stand and testified that he found the remains were those of a human being.

Mrs. Spillman, the owner of the barn, stated the fact that a man who went by the name of Shorty, was in her saloon. He was drinking some and seemed to be drunk. She said he was a Kerman boy and a man by the name of Fisher and a man by the name of Kerwin, drove up in a buggy. Tom got out and said, "Hello, Shorty," and the two had a glass of beer together. A man Tom had seen him before started to run in a buggy, when "Shorty" called him back to another drink. They got into a quarrel over who should pay for it, when Tom knocked "Shorty" down and kicked and beat him. "Shorty" got up and ran away. Some boys asked by the reporter what had happened, Tom said to "Shorty" in his barn, he replied "He said he'd do him—nothing more." "Did 'Shorty' make any reply?" "No, sir."

THE LOWELL MURDER CASE.

Some New Developments in the Case.

The Prosecution Closes To-Day.

In the Lowell murder case yesterday one point came out—Mike Keyser, a man who had stock pasturing on Lowell's ranch, testified that he met Myers and Olsen on the ranch on the 10th of March, and was introduced to them by Lowell. He talked with them for some time. On the morning of the 12th he arrived at the ranch with his two brothers, and the girls found three cows dead and the fresh entrails of the calf the defendants say they killed while hunting for his stock. He found the old white horse that was shot. He found the two girls were left at Lowell's. The two girls were left at Lowell's, and the two girls were left at Tom's. They went to Sacramento and back. When they arrived there the morning after the murder there was a notice on the door, stating that Lowell had gone away for two days. He had been to the city of Lowell, and he was staying at the Hotel Lowell. He was drinking heavily, and was in a bad condition. He was seen at the hotel bar, and regretted that he ever met Olsen. The letter is considered very damaging to the defense.

The afternoon session was taken up with the reading of the testimony taken in the case of John Stein while on trial in Sacramento for receiving a portion of the property stolen from Lowell. The testimony of Harry Myers was read by W. E. Doane for the defense, and an objection was made by the counsel for the defense. The prosecution expect to close their case to-day.

CALIFORNIA GREEN FRUIT.

An Unholy Demand For It in the Eastern Cities.

Ex Senator L. W. Buck, General Manager of the California Fruit Union, has just returned from a two month tour of the principal Eastern cities, and makes the following statement in an interview published in the San Francisco Alta:

I visited all the principal cities of New York, Boston, Philadelphia, Pittsburgh, Indianapolis, St. Louis, and New Orleans. I found California fruit in active demand. With all the large fruit dealers in the principal Eastern cities, and the public is more familiar with our fruit than ever before. The demand is greater than ever before.

At half past 12 this morning the jury returned a verdict of assault to commit murder.

John Henry said his brother slapped Shorty, but Tom came out bluntly and said "I knocked 'Shorty' down."

The Kerman boy and those of Mrs. Spillman and Mr. Morrison were every particular, but in some important points they contradicted each other.

Peter Fisher said he helped Kerwin take Shorty to the barn. Although badly wounded, he was able to walk.

They laid him down and made him comfortable as possible on the straw.

Shorty asked for a drink of water, he was given a cup of water for him, and Peter Fisher gave him a drink and the set the cup of water down beside him.

Then they all denied having run from the barn to the buggy, and a moment later Tom came out bluntly and said "I knocked 'Shorty' down."

LOCAL INTELLIGENCE.

LICENSES.

Collector Dolan States Some Facts Regarding Their Payment.

License Collector Dolan was represented in our evening contemporary the other day as having appointed "Detective Cone" as his deputy, and was scored for so doing. Inquiry of Mr. Dolan develops these facts. He has not appointed Cone his deputy. All officers have been given to understand that if they make arrests for failure of anyone to procure a license he, Mr. Dolan, is in duty bound to prosecute the cases. Several officers are desirous of making it their business to look out for violations of the license law. The law allows the officer who makes an arrest a fee and it was probably put into the law to stimulate them to duty. But this fee is not paid by the officer, but by the person arrested whatever he do with it. Mr. Dolan says officers make arrests sometimes, and on payment of the license fee do not present the parties to trial, as no object is attained without a trial, a fee is lost.

Collector issues a license to an officer, or any one else who calls for it, and pays the fee. Cone, says Mr. Dolan, has arrested or threatened to arrest any person who has failed to obtain a permit, and while he has acted unlawfully, and without the knowledge or authority of the License Collector or any one else. No one has ever been arrested for failing to pay the fee. For not taking out a license, Mr. Dolan says Cone did ask him some time ago if he (Dolan) would prosecute cases where he arrested parties for not having a license to him, and he said "no." He adds that he issues a license to any who apply, and that Cone and other officers and persons have applied for a license, and he issued it to the Collector, or receives any fee from him, and out of the license fund for doing so, and he disclaims any authority or power over any one who looks up delinquent license cases.

Statement of Mrs. Saunders.

Mrs. Saunders, to whom reference has been made as having left her children in a buggy on Saturday evening and gone away in company with two men, and remaining until her children had been taken away and put to bed by a family on J street, claims that great injustice has been done her in the previous statement; that she was very innocent in regard to her children, and deserves the publication of her statement given below. She states that she resides upon a farm three miles south of the city, which she conducts with our help, and which adds greatly to her fruit to market and sells it. Her statement is as follows:

"I came in on Saturday evening in a buggy bringing some boxes of fruit, and having two or three eggs with me. Arrived about 8 o'clock, and after disposing of the fruit and driving around town, I met a lady who is a neighbor of mine in the city.

"Upon meeting her she asked me if I would take her son out house as she could not wait for him. I then concluded, as I had a chance to send my buggy home, and as I have reason to believe that she would not pay me when I was to stop in town, to stay here that night, and let the young man drive my horse. I therefore drove to Barton's to let the children have some ice cream, while I stopped and the boy said he would take his son about taking the horse home. After hitching, I gave my children money to get ice cream, as I had frequently done before, and told them when we were to go to town, to stay here that night, and let the young man drive my horse. I therefore drove to Barton's to let the children have some ice cream, while I stopped and the boy said he would take his son about taking the horse home.

The following paintings, just received from Paris, and now exhibited for the first time in America, were kindly loaned for exhibition by Mr. George L. Dickey, Post street, San Francisco. "Driving the Sheep Home," F. Brissot; "It's a Cold Day, and We Got Left," E. Miralles; "Ready for the Chase," DePenne; "Study of a Girl," L. Dubois; "Waiting for Dinner," F. Miralles; "Waiting for the Sun," W. B. Baird; "By the Spring," A. Guillemin.

North Bush exhibits quite a number of the scenes of "Cuba," "The Bronx," (Westchester County, N. Y.), "Views in Central Park," "Morning on the Bay of Panama," "Moonlight on New York Bay," "River San Juan," "Nicaragua," "Tropical Moonlight Scene," "Antigua Guatemala."

One of the finest paintings in the gallery and one of the most valuable, is "When the Year Was Young," by Mary Curtis.

All of the paintings are not yet catalogued, and a more complete notice will be given hereafter.

The receipt the first day were \$1,151.00.

The floral display for the usual special premiums will take place Saturday evening, September the 8th, and Thursday evening, September the 13th. All the Sacramento fairs are invited to compete.

Next week at the pavilion, commencing Monday evening, Professor J. F. McCleary, one of the champion billiard-players of the coast, will give exhibitions of his skill, and

POINTERS.

The Pavilion, Fifteenth and N streets, is open daily from 9 A. M. to 5 P. M., and from 7 to 11 P. M.

The Park, Twentieth and G streets, commencing with Thursday, September 6th will run races every day. Races commence each day at 1 o'clock P. M.

Thursday evening, September 6th at the Pavilion, opening address, by George A. Knight.

Friday, September 7th, 10 A. M., ladies' tournament, at Park.

Saturday, September 8th, at 9 A. M., stock parade, at Park.

Monday, September 10th, at 10 o'clock A. M., baseball match Park and N. streets, first game, between the Sacramento and San Joaquin, featuring nine of full-blooded Indians, who play through an interpreter. They have defeated all contestants thus far, and will doubt play a very interesting game.

All of the paintings are not yet catalogued, and a more complete notice will be given hereafter.
